Technical & Architecture Docs

Project Architecture Overview

Folder Structure

/src

/components Reusable UI components

/screens Page-level views (Home, Profile, etc.)

/api API integration logic

/utils Utility functions

/assets Images, icons, etc.

Tech Stack

- Frontend: React Native
- Backend: RESTful API (Node.js / Express)
- Database: Firebase / Neo4j (Demo only)

Key Concepts

- Components are functional and use hooks
- All API calls are in /api
- Navigation uses stack + tab navigation
- Styling uses Tailwind + NativeWind
